Creating Respect is Good Selling

As your fine craft passes the reviewing stand, it creates that much sought impression, Respect.

The boat-builder's use of quality materials brings this about.

Likewise in your printed messages — your catalogs, booklets and other sales literature — quality materials are essential if you would win respect for the merchandise you illustrate.

Good papers — Seaman-Patrick Papers — are quality foundations for the better varieties of printed salesmanship.

Visit or phone the "Library of a Thousand Ideas" and permit us to demonstrate this point completely.
